

June 6 -10, 2010

Join us on June 6 - 10, 2010
in Orlando, FL for Inteltec 2010®.
This year's theme is **Energy doesn't
just mean telephony anymore!**
The conference will take place at the
Hilton® Orlando Bonnet Creek
located in Orlando, Florida, USA.

INTELEC® 2010 features a comprehensive program for the telecommunications professional, including:

- Technical Papers and presentations covering the latest telecom power developments
- Tutorials for continuing education
- An exhibition of the latest products to support telecom power systems
- Meet and exchange ideas with the leading professionals in the industry

Conference topics include:

- Power systems for enhanced services for wireless communications
- Energy storage systems – electrochemical and alternative systems
- Smart Grid applications
- Challenges of powering large ICT facilities and networks
- Distributed generation: renewable and alternative power generation and energy storage
- Energy efficiency & carbon footprint
- Integrating the diverse power requirements of cable, wireless and the Internet

Hilton® Orlando Bonnet Creek
Brand new hotel in the heart of
482 acres of mature woodlands
and natural waterways, surrounded
on three sides by Walt Disney
World® Resort.
